

Northern Horizon Park

63rd and Northern Avenues

BIKE SAFETY

• Station 1 BIKE BASICS

You will learn what to check to on your bike to make sure your it is in good shape and safe to ride. You will also learn how to correctly adjust your bike helmet to ensure maximum safety.

• Station 2 THE DEMON DRIVEWAY

You will learn how to safely enter the street from a driveway by making sure no cars are coming before riding onto the street. Children riding out of their driveways onto the street without looking first is a major cause of bike accidents.

• Station 3 THE CRAZY CROSSROADS

You will learn how to stop at crossing streets (intersections) and make sure no cars are coming before you cross the street. Bicyclists who don't stop for stop signs and look both ways for traffic cause lots of bike accidents.

• Station 4 WHO'S THERE?

You will learn how to look over your shoulder to check for cars without swerving your bike as you turn. By learning to keep a straight line of travel you will be a safer bicyclist.

• Station 5 ROCK DODGE & THREAD THE NEEDLE

You will learn how to dodge things like rocks on the street while keeping a straight line of travel. This skill is needed so you don't swerve into traffic or hit a curb when things get in your way.
